

# PRODUCT RANGE **KIDS**

Plaster, first aid kit and co.  
for schools and kindergardens.

FIRST AID

The first aid equipment especially suitable for children.

GRAMM  
medical

## Did you know?

Kids are in need of special safety

– not only because they are very active and are not able to assess dangerous situations. Their small stature also requires special precautions in the event of an emergency

## Safety first

For an comprehensive complete equipment of kindergartens and schools we recommend our Special first aid kit with special additional equipment tailored to the individual areas - of course including the usual and prescribed DIN filling. For more safety and a targeted response in emergencies!

ALSO INCLUDES  
CHILD  
PLASTERS!

### First aid kit KINDERGARDEN

Impact-save and unbreakable first aid case made of ABS plastic, equipped according to DIN 13 157, plus additional equipment especially for kindergartens, with wall bracket and rubber seal, adjustable interior dividers, mobile and stationary use, sealable closure.

## Got everything on you?

Well-equipped all-round equipment is essential in an emergency and especially in dangerous areas for children. We offer you different products that are tailored to your requirements and needs. Whether it's an emergency backpack for mobile use or a finger bandage for minor injuries - you'll always find the right product with us!

# A central contact point in an emergency

Provide a central contact point in kindergartens, schools, day care centers and other facilities for children that offers quick help in an emergency. The EasyAid plaster dispenser can be easily installed with screws or adhesive strips and refilled quickly. It also offers space for up to three different types of plasters - in addition to KIDS motif plasters, for example, elastic, water-repellent or fingertip plasters are also available.

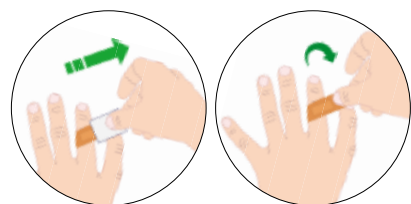

**Optional theft protection**  
If activated, the plaster refills can only be exchanged with a suitable key

**Easy assembly**  
Easy to attach with screws or adhesive strips

**Triple protection**  
Offers space for up to three different plaster types

**Ready for immediate use**  
Plasters can be applied directly after removal

**Easy to find**  
Good visibility even in demanding environments thanks to the signal color orange

**Well protected**  
Completely closed housing protects the contents from dirt, dust and splashing water

**Clean removal**  
Removing the patches from below = no contamination of the dispenser with dirt or dripping blood

**The EasyAid® Reminder**  
Never again without a plaster - the clever Kanban system reminds you in good time to reorder new refills
