Construction sites	1 to 10 employees	1 first-aid box DIN 13 157
Large first aid kit with dressing material filling according to DIN 13 169		
Administration and trading companies	51 to 300 employees 300 additional employees each	First aid box DIN 13 157 additional 1 first-aid box DIN 13 169
Production and processing plants	21 to 100 employees per 100 additional employees	First aid box DIN 13 169 additional 1 first-aid box DIN 13 169
Construction sites	11 to 50 employees 50 additional employees each	First aid box DIN 13 169 additional 1 first-aid box DIN 13 169

Our first aid kits are also suitable for mobile use.
The bandage filling DIN 13 169 corresponds to two bandage fillings according to DIN 13 157.

FIRST-AID BOOK / DOCUMENTATION

Important information about the first-aid book and accident documentation

According to DGUV regulation 1, every first-aid service in the company must be documented by writing in a first-aid book and be treated confidentially. The documentation must be kept available for 5 years.

First Aid Guide / Emergency Board

In addition to the first aid material as a notice on first aid measures.

EYE-SOLUTIONS

Eye-Emergency: acid burns

Quick help is needed here. With our phosphate-buffered eyewash solution **BioPhos®74** chemical burns, whether caused by acids or alkalis, are immediately neutralized, so that further damage or consequential damage to the eye is counteracted.

Eye-Emergency: foreign bodies

To get rid of them as quickly and gently as possible to flush the eye, it needs a sterile **ACTIONMEDIC®** Sodium chloride eyewash solution. This allows foreign objects to be removed quickly and effectively be washed out of the eye.

PLASTER / PLASTER DISPENSER

Plasters

Proper care of small wounds is just as important as the care of large injuries. Here offers Actiomedic® offers a variety of quality plasters that carefully cover every wound in different designs. These include plaster strips, finger bandages, fingertip bandages and finger joint bandages. Different materials and functionalities cover the needs of normal companies as well as food processing companies.

MEDICAL ROOM FURNISHING

First-aid and relaxation room loungers

First aid and rest room couches must be provided in accordance with § 6 Para. 4 of the ArbStättV and ASR as well as the requirements of the Maternity Protection Act (rest room couches). Entrepreneurs must ensure that a first-aid room or similar facility is available at a business premises with more than 1000 employees.

Transport / stretchers

In order to free injured people from a dangerous situation and not to further harm patients during transport, special aids are needed. In workplaces with a large spatial extent, stretchers must be available in easily accessible places.
